Displacement sequence at $C = 18$: bounded, but rows decay only like $1/|i-j|$
prime part b_n^{Π} ($p^a \le 17$)
archimedean part $b_n^{\mathbb{R}}$
pole part b_n^{P}
$b_n = nA_{n0}$
$\pm B = \pm 3.157$ (uniform on $[17, 19]$)
